Dear Parents,

The month of October is Fire Prevention month!! It is important to us that we still educate our kids in the community about variations of being prepared in case of an emergency. In partnership with Brighton Area Fire Authority, we have prepared a safety topic for each day of this week, due to current circumstances with the pandemic, we have taken most of our Pub Ed's virtual.

The days go as followed:

- Monday: Home Inspection
- Tuesday: Home Safety
- Wednesday: Close Before you Doze
- Thursday: Kitchen Safety
- Friday: Emergency Ready

With each topic we have also prepared worksheets to follow along with each video being shown in the classroom that day, the purpose is to have both parents and children involved in the activities. Below we have provided a link to the videos and the homework, allowing you to follow along at home.
