**CALL 810-632-7676 BEFORE BURNING:** By calling the number, you are only calling to check on the burning conditions. If the phone is not answered, you will be prompted to push extension 1 to check on the burning conditions. You don't have to leave a message. If the message says it is ok to burn, then you may do so as long as the wind does not appear to be a problem in your burning location. IF the message says open burning is **NOT PERMITTED** then **DO NOT START YOUR FIRE.**

If the fire department is called out to your location and open burning is not permitted, then you may be subject to fines associated with that call under the Cost Recovery Ordinance, and you may lose your burning privileges. In addition, if you are found to be burning materials which are not approved, then you may be subject to fines and loss of burning privileges. REMEMBER: By following the guidelines above, you will do your part to ensure that open burning will be permitted for years to come.

**YOU ARE STILL RESPONSIBLE FOR YOUR FIRE AND DAMAGES IT MAY CAUSE,** regardless of the burning conditions for that day.
